

CROSSLAND HIGH SCHOOL
ATHLETIC STADIUM RENOVATION

PROJECT OVERVIEW

Prince George's County Public Schools is advancing a comprehensive, phased renovation of the existing Crossland High School stadium and athletic facilities. Phase I included new bleachers and a press box, installed in 2024. Phase II delivered new stadium lighting, which has been completed and turned over to the school for fall sports.

Phase III includes a new synthetic-turf field, a six-lane track, and upgraded track-and-field event areas, baseball and softball improvements, and new scoreboards and athletic equipment. Additional enhancements include an egress sidewalk with LED pathway lighting, perimeter security fencing, a new entrance ticket booth with mounting points for metal detectors, and an enclosed storage building.

Together, these improvements will support student-athletes, enhance spectator amenities, and modernize the school's athletic facilities.

PROJECT SCHEDULE

Phase I	**Completed 2024**
Phase II	**Completed Summer 2026**
Phase III: Permitting	**Fall 2026**
Phase III: Construction	**Fall 2026 - Summer 2027**
Phase III: Substantial Completion	**Summer 2027**

PROJECT FEATURES

PHASE I

Bleachers

New aluminum bleachers with increased seating capacity and structural piers, including home and visitor sections, ADA-accessible ramps, and integrated seating.

Press Box

A new press box with integrated bleachers, HVAC, and electrical systems.

PHASE II

Stadium Lighting

New LED stadium lighting to provide greater field flexibility, along with additional egress lighting to enhance pedestrian safety and security during evening events.

PHASE III

Synthetic Turf Field

A multipurpose field designed to support football, boys' and girls' soccer, softball, and baseball, with improved drainage and safety for student-athletes.

Egress Lighting

Additional egress lighting to enhance pedestrian safety and security during evening events.

Track Event Areas

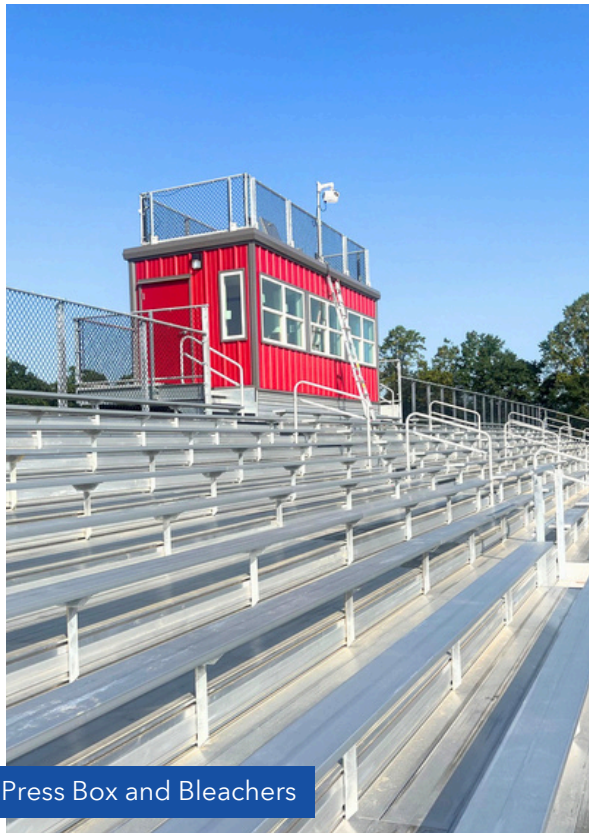

Upgraded track event areas designed to meet NFHS standards, including a new track and facilities for pole vault, shot put, discus, long jump, and other track-and-field events.

Perimeter Fencing

New perimeter fencing around the stadium, baseball field, and softball field, along with a new walkway throughout the stadium.

Equipment

Two single batting cages, one double softball batting tunnel, a new ticket booth, and a enclosed storage building. Additional equipment includes football and baseball scoreboards, three flagpoles, two foul poles, new connecting steps, and an electrical box supporting the 400-meter track.
