

SUITLAND HIGH SCHOOL

A LOOK INSIDE THE NEW BUILDING

The new **Suitland High School**, located at **5200 Silver Hill Road** in the Suitland and Arnold Heights communities, is a **\$335 million replacement facility** serving **2,000 students in grades 9–12**, including **1,500 comprehensive students and 500 CVPA students**. The **389,108-square-foot** school, led by **Principal Maurice Wright**, was designed by **CGS Architects** and constructed by the **Turner-Corenic Joint Venture**.

BUILDING FEATURES

SCHOOL AUDITORIUM

A versatile performance space designed to host assemblies, performances, and events with advanced sound and lighting systems.

COMPETITION AND AUXILIARY GYMNASIUMS

State-of-the-art gymnasiums designed to support both competitive sports and recreational activities.

DINING COMMONS AND FOOD SERVICES

A spacious dining area with a welcoming atmosphere, the commons encourages social interaction and serves as a central gathering space.

MEDIA/LIBRARY CENTER

A dynamic learning center that combines traditional library resources with state-of-the-art media technology, providing access to a wide range of digital and print materials.

LEARNING TERRACE AND OUTDOOR COMMONS

An inviting outdoor area designed to extend learning beyond the classroom. The terrace and commons provide a natural environment for study and social interaction, promoting a healthy balance between indoor and outdoor activities.

CLASSROOMS, LABORATORIES, AND STUDIOS

Flexible learning environments equipped with modern technology and resources support a wide range of subjects and instructional approaches, including a culinary classroom, cosmetology lab, photo studio, and media lab.
