- II. **POLICY:** The Board of Education is committed to providing safe and supportive learning and working environments for students and staff. To that end, the Board of Education directs the Chief Executive Officer to establish and maintain a behavior threat assessment process that provides appropriate measures to identify, assess, and intervene when an individual's behavior may pose a threat to the safety of the school, students in the school, and staff members in the workplace; to protect and support potential victims; and to provide assistance, as needed, to the individual being assessed. Prince George's County Public Schools (PGCPS) is working in partnership with the mental health community and law enforcement to ensure that mental health services and other resources are readily available to identify and eliminate threats or unwanted behaviors within the school community, to support potential victim(s), and provide assistance to the individual being assessed. Maintaining a safe and supportive learning environment is vital for achieving our goal of outstanding academic achievement for all students.

- IV. **DEFINITIONS:**

The triage process may include:

- a. Reviewing the initial inquiry report and any additional information about the threatening behavior or communication;
- b. Reviewing educational and health records. This includes recent school performance history, disciplinary actions, prior threats, previous social and emotional interventions, presence of known problems in the life of the individual, and online searches. The review is conducted by the school counselor, school psychologist and/or school social worker;
- c. Consulting with staff members who know the student well;
- d. Requesting the law enforcement member/Security Services member of the School-Based Behavior Threat Assessment Team to obtain criminal history record information to further evaluate and assess the threat, where deemed appropriate; (MMP)
- e. Nonetheless, the incident must be documented in Attachment B and in the online Behavior Threat Assessment Tracking System (BTATS).
- c. If it is determined that the threat is a moderate or high risk of violence or harm to self or others, the school-based Behavior Threat Assessment Team must complete the student interview form (Attachment A) and the incident must be documented (Attachment B).
- d. The age, grade and mental capacity of the student will be taken into consideration in the determination of the level of threat and in the decision to involve law enforcement.
- e. If the team is unable to come to a consensus about the threat level, the principal makes the final decision.

6. **Responding to a Threat by a Student**

- a. After the school-based Behavior Threat Assessment Team determines the level of threat, the following actions are required as appropriate:

appropriate, in developing and implementing a case management plan for the student of concern and any potential victims. (MMP)

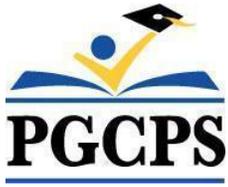

1. The Case Management Plan should be fact-based and person/situation specific. The plan should identify appropriate actions to implement with the student who posed a threat. Examples of such actions may include, but are not limited to: providing direct communication and engagement with the individual who was assessed to build rapport and relationship, decrease isolation, de-escalate volatile reactions, provide feedback and mentoring; monitoring reactions to grievances, interventions, and precipitating events; making referrals to the SIT/SSP/IEP team for assistance and support services, including but not limited to: academic assistance or accommodations, social skills training, restorative approaches including peer mediation, restorative chats, etc.; providing peer coaching/mentoring; providing school-based counseling services; and/or providing individual counseling referrals for outpatient counseling/mental health care.

Updates regarding the case are to be documented and uploaded in the online Behavior Threat Assessment Tracking System (BTATS) regularly by the designated case manager, at least every 30 days, until the case is resolved and the student is no longer assessed to pose a threat to the school or its staff or students.

2. The School-Based Behavior Threat Assessment Team may inform potential victim(s) of the threat. The Case Management Plan will identify actions that will support potential victim(s) of the threat or students impacted by the threat. Examples of such actions may include, but are not limited to: offering brief supportive counseling; school based staff to monitor student who was the victim at regular intervals, etc.

E. **Student Discipline**

1. Regardless of threat assessment activities, disciplinary action should be taken in accordance with the PGCPS Student's Rights and Responsibilities Handbook. Removing a student from school does not eliminate the risk to the school community or the need to develop a case management plan to support the student, as appropriate. (MMP)
