September 2024

Art Class with Ms. O

What We are learning this Month:

During the month of September students will be learning about the elements of art with a focus on lines. Specifically, we will learn about different types of lines, how to use a ruler to create straight lines, how to combine lines to create patterns and how to properly use art materials. Older students will also learn about how to create complex patterns through the repetition of simple lines.

Ways families can support learning from home:

Even if you don't have a ruler at home, students can still practice creating straight lines by using objects such as a book, small box or even the straight edge of a phone.

Music Class with Mr. Mills and Ms. Eubanks

What We are learning this Month:

Music class is in full swing for the month of September. Did you know that GNS has a school song? Who knew? All grades will be learning our school song and more during this month. The goal is to have it completely learned by some grades so you all can hear their lovely voices and be introduced to a song that is about 20 years old. Additionally, pre-k through 2nd grade will be learning about "steady beat" because that is a very important skill in music! 3rd through 5th grade will be focused on voice and all the mechanics in the body that help produce a lovely sound. September will be a great start and I'm excited to see what my students will accomplish!

Ways families can support learning from home:

Get a head start by learning our school song together with your family!

PE with Mr. Stewart and Mr. West

What We are learning this Month:

Students will be learning about spatial awareness, performing locomotor skills, and using strategies and tactics while participating in various lesson activities this month.

Ways families can support learning from home:

Students can practice the 7 basic locomotor movements for sports at home.
