## SPECIAL EDUCATION

### LEARNING TIPS

#### Visual Behavior Poster

A Visual Behavior Poster is a visual poster that is displayed in the classroom to provide support and reminders for expected or desired behaviors in the classroom. This poster could include classroom rules and expectations or specific behaviors that the students are learning in the classroom or during certain routines throughout the day.

### Home Support

- Help children know what to expect throughout the day by displaying visual schedules in their environment. You can put them in their bedroom, on the refrigerator, or on the bathroom mirror.
- Make the schedule with your child to help them get engaged
- Model how to use the schedule by pointing to, removing, or covering up tasks
